

FARM HAITI

CELEBRATING TEN-FOLD ~ JUNE 2023

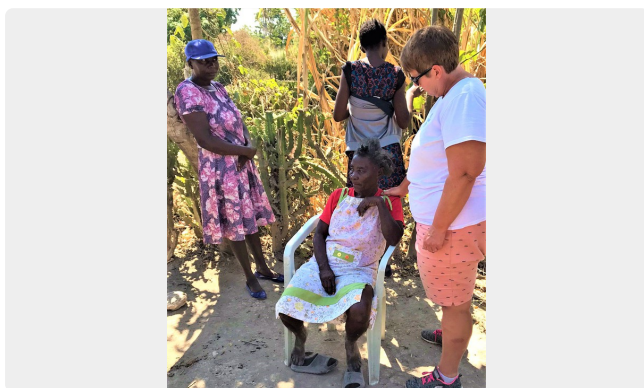

10-Year Anniversary

This past January marked my 10th anniversary in Haiti. My life changed drastically as I followed God's call. It's a good thing God doesn't give us the whole plan up front. Had I known I'd still be in Haiti 10 years later, I don't know if I would have had the courage to go. And so today we celebrate 10 years of learning, sharing God's word, healing the sick, casting out demons-all advancing God's kingdom on earth.

10 X 10 = 100 Farmers visited every 2 weeks

Following Jesus' example of sending out 'two by two', our staff go out in pairs to visit farmers in their fields 6 days a week. We encourage them, work beside them, and answer questions. This method helps us build relationships, discovers and draws out the God-given talents each person has, thereby empowering the farmers to become agents of change for their families and communities. This is a sustainable approach to development work.

COMMUNITY OUTREACH

One member of a farm group was ill. The whole group walked to her house to pray with her and blessed her with food.

FARMER SHOWING OFF HER GARDEN

"Now I don't have to ask my husband for money to go to the market. I just go to my garden."

100 X 10 = 1,000 Farmers Trained in Farming God's Way

It has been our honor to teach 1,000 farmers a more profitable system. A system that helps alleviate poverty through higher yields and better management and alleviates spiritual poverty by restoring relationships with God.

We know we are making an impact as Roudlin, an agronomy student, requested training for his home village 2 hours away. He understood the positive affect it would make in the lives of his family and neighbors. That is our desire too, seeing people working together to advance their lives, their families' lives and eventually their communities.

Classroom Studies

Hands-on Learning

Compost Training

1,000 x 10 = \$10,000 The monthly amount needed to meet budget

We are not there yet, and this is where we can use your help. \$300 will pay a month's salary for one of our hardworking staff. A three-day seminar for 50 farmers costs \$1,600. Village visits cost \$1,100 each week. We have many goals that have been put on hold while we wait for the finances. Ex. \$750 to build a shade house and funds to add livestock, goats, chickens, pigeons, and guinea hens. Partners like YOU are what keeps us going. Partners who desire to help others achieve a better way of life, empowering them to rise up and become change agents in their communities.

10 X 10,000 = 100,000 The number of trees we have planted

As Haiti is 98% deforested, this initiative is very important. Every rain, more topsoil washes away into the ocean. The solution: plant trees! FARM Haiti team is leading the way with a thousand-tree Agri-forestry demonstration area on our land. With proper care, trees grow fast in Haiti, as witnessed on the picture below.

1-YEAR OLD TREES

NEWLY EXPANDED AGRI-FORESTRY AREA

100,000 x 10 = One million!! The number of blessings God has showered on FARM Haiti through YOU

God has blessed FARM Haiti, our staff, our farmers, and neighbors abundantly these past 10 years. To all who have supported us, we thank you from the bottom of our hearts! Through you and your generous giving, lives have been changed. As we give back to the Lord, he makes us promises as in 2 Corinthians 9:7-8 *"For God loves the person who gives cheerfully. And God will generously provide all you need. Then you will always have everything you need and plenty left over to share with others."* These verses are our prayer for you.

Share your Treasures

We live in a land of abundance. Partnering with us will help alleviate poverty in Haiti through profitable farming practices, one farmer at a time. Together we can make a difference.
